SHANON SIMON LUBEGA

Full-Stack Developer

📞 +256771950092 ✉ shanonsimon082@gmail.com 📍 Kampala, Uganda

ABOUT ME

Recent Computer Engineering graduate and passionate Full-Stack Developer with hands-on experience building complete web applications showcased on GitHub. Skilled in React, TypeScript, JavaScript, HTML/CSS for modern frontends, and PHP/Laravel, MySQL, MongoDB for reliable backends. Quick learner, strong problem-solver, and collaborative team player eager to deliver clean, high-quality code and grow in a professional environment. Ready to contribute fresh ideas and up-to-date skills from day one.

EDUCATION

Soroti University | 2022-2025

CGPA: 4.5

Relevant Coursework: Web Development, Database Systems, Software Engineering, Data Structures & Algorithms, Object-Oriented Programming.

Final-Year Project: Full-Stack Web Application using React frontend and Laravel + MySQL backend (live on GitHub: github.com/shanon082/laravel-react-tailwind-final_year_project)

Onwards and Upwards SS | 2014-2019

Points: 18 (PCM/ICT)

Uganda Certificate of Higher Education (UACE) and Uganda Certificate of Education (UCE)
Grade: [A / B / A] | Mean Grade: 18 points
Relevant Subjects: Computer Studies (c3), Mathematics (A)

WORK EXPERIENCE

Full-Stack Developer (Freelance, Open-Source Contributions)
[https://github.com/shanon082]

Remote / Self-Directed - June 2024 – Present)

1. Built and deployed 5+ full-stack web applications from scratch, all publicly available on GitHub.(github.com/shanon082)
2. Actively helped 10+ fellow students and developers with their projects through code reviews, debugging sessions, and direct contributions on GitHub (pull requests, issue resolutions).
3. Assisted classmates and online community members in fixing React/TypeScript frontend issues, Laravel routing, MySQL query optimization, and deployment on Apache servers.

SKILLS

React.js (Hooks, Context, Forms) | TypeScript | JavaScript (ES6+) | HTML5 & CSS3 (Flexbox, Grid, Responsive Design) | Tailwind CSS | PHP 8+ | Laravel (Blade, Routes, Middleware, APIs) | RESTful API Development | Authentication (Sanctum, Session-based) | MySQL | MongoDB (CRUD, Aggregation) | GIT and Github | postman
